

A New and Critical Edition of George Osborns The Poetical Works of John and Charles Wesley (1868-1872): With the Addition of Notes, Annotations, Biographical and Background Information

This New Edition provides general readers and researchers alike with necessary background information relative to those poems—details historical, bibliographical, and biographical that Osborn omitted or of which he had no knowledge. Thus, this New Edition becomes an important research tool, rather than simply a polished reissue of a literary antique within the facade of new bindings. This volume of the New Edition of George Osborns The Poetry of John and Charles Wesley widens considerably the entrance into access of the original poems of the eighteenth-century Wesleys, as well as their translations and altered versions of others poetical works.
