

## Off the Beaten Track: A Year in Haiku

Off the Beaten Track presents new work by twelve writers taking part in a unique collaborative project. Each of them was invited to compose one haiku per day for a month, thus contributing towards the total of 365 haiku for a full calendar year. The result is a fascinating collection of glimpses into the lives of twelve highly distinctive writers through their observations of the minutiae of their daily activities and the world around them.
