

Chinks & Mortars

When his unit is sent to Iraq in 2003, Asian American soldier Vince Young befriends the white female soldier, Specialist Amos. For Young, adventure and hijinks immediately ensue: He cops a feel of a superior male officer; romances Amos with late night variety show viewings; and becomes a base liaison for the local Iraqis. But on one fateful night, when an insurgent aims his gun Youngs way and the sky rains mortars, Youngs utopia shatters and he is forced into sudden action. In the aftermath, and for years to come, he will attempt to make amends for his behavior, and in doing so, perhaps finally be worthy of Specialist Amos.
