

Out of Africa: A Novel of Student Demonstrations and Protests Amid Campus Politics, Booze, Sex and Betrayals at an African University

Student demonstrations against governments failure to meet students demands continue unabated; military government refuses to hand over power. Jonas, sponsor of Student Group at Elgin campus, suddenly disappears in mysterious circumstances. The Group wins campus elections and Joe, its leader, is sworn in as President of Elgin University student union. Using their political leverage, The Group confronts General Ito (Chairman) and his military government. Students are arrested and dumped in the Castle dungeons. Demands for their release reach searing points on campus, resulting in massive, nation-wide student demonstrations, confusion and anarchy. Disgruntled junior officers overthrow the military government, freeing Jonas and others. A new civilian government is hastily assembled with Jonas as new President; but The Group refuses to participate; negotiate for safe exit overseas. At the airport, The Group is ambushed. Jonas and two members disappear into oblivion. The rest are hastily scrambled into the plane and take off.
