

Poems of Arab Andalusia

These poems, from the astonishing 10th-through 13th-century civilization in Andalusia, are based on the codex of Ibn Said, who wanted poems whose idea is more subtle than the West Wind, and whose language is more beautiful than a fair face. Spanish readers have long been enchanted by their enduring appeal through the versions by Emilio Garcia Gomez. This poetry of Arab Andalusia made a profound impact on Spains Generation of 27. Rafael Alberti says that it was a revelation for me and had a great influence on my work, but above all influenced the work of Federico Garcia Lorca.
