

## Populism and Feminism in Iran: Womens Struggle in a Male-Defined Revolutionary Movement (Womens Studies at York Series)

Women presented the first effective challenge to the Islamic regime and the clerical authority in post-revolutionary Iran. Womens activism in support of their legal rights and personal freedom, however, did not develop into a strong movement against the rising fundamentalism. The Iranian socialists did not support womens autonomous organizations. The convergence of the Lefts populism with Islamic populism, and the influence of the Iranian/Shiite political culture that promotes male authority and female submission, could not reconcile with womens claims to individual rights, choice, and personal freedom and their struggle for autonomy and self-determination in private or public life.
