

Suicide vs Sacrifice: A systematic review! (Suicide in Military: A comprehensive Review Needed Book 1)

I RESPECT! I SALUTE EACH ONE OF MILITARY SOLDIERS! I will be indebted throughout my life to all the military veterans who sacrifice most of their youth and aged years for the security and safeguarding the nations to give the peace and freedom where we live in now. As I looked upon, I was unaware of the fact what is to be like when a person whom you love or close to your heart belong to the country where we reside, the priority for him/her dedicates throughout till his/her last breathe. For a moment can we all civilians think of it? For us, our first priority is our family then friends, then there comes the nations. For the military officials is vice versa. In a civilian family, the one who serves us, give us our security, safeguarded us all the way through, can sacrifice for us and we reciprocate with the same feelings for that person. Imagine about the military officials, they pledged to give their lives(SERVICE BEFORE SELF: Roaring power in the veins of every soldiers) for the nation, to safeguard the citizens of the nation, to be unselfish, to sacrifice beyond one could imagine Do we know any one of them? If we do, we know the value of them, and if dont, nobody bothers how they survive and live each day of their lives.
