

Red to Black

At the dawn of the new millennium, as the candle of democracy flickers in the Russian winter, Finn, an MI6 spy, and Anna, a colonel of the KGB, have been sent to spy on each other. Instead they find a love that becomes the only truth they can trust. A source deep within the Kremlin tells Finn of a plan, hatched in the depths of the Cold War, to dismantle the edifice of the communist state and to bring about the rise of a new imperium within Russia: a plan to control the whole of Europe. With Finns masters in London blinded by the new wealth pouring out of Russia, Finn must work alone and in deadly secrecy to uncover the full horror of this plan and the terrifying threat it poses to the freedom of the west.
