

A Study in the Revelation

This book is a compilation of 45 sermons and addresses prepared and preached to his congregation presenting his belief in the Amillennial doctrine. The authors study on the subject covered a period of nearly 50 years of ministry. In the days when pre-millennial and dispensational views are prominent this writer uses the Scripture as its own commentary. While it appears in sermonic format it is a detailed presentation with hundreds of verses to substantiate his view.
