

## Theologia: The Doctrine of God (Works of Revere Franklin Weidner)

This is the second volume in Weidners series of books on Christian dogmatics. This work is compiled from Weidners theological lectures on the doctrine of God given to his seminar students. This volume covers all of the foundational elements of the doctrine of God, such as: the existence of God, the attributes of God, and the Holy Trinity. This volume also covers the doctrines of predestination, providence, creation, and angels. Each section contains extensive citation of Scripture and the fathers of Lutheran orthodoxy.
