

Richard Hooker and the English Reformation (Studies in Early Modern Religious Tradition, Culture and Society)

This collection addresses the substance of Richard Hooker's achievement as a theologian and philosopher in the context of principal themes of English Reformation thought. Five principal loci of Reformation discourse are addressed: the relation between the orders of Grace and Nature; the doctrines of Providence and Predestination; the Church and the liturgy; sacramental theology; and the polemical cut-and-thrust of the late-Elizabethan context. It is of interest to scholars, seminarians, and students.
