

# Sedulius Scottus, De Rectoribus Christianis (On Christian Rulers): An Edition and English Translation

Sedulius Scottus (fl. ca 850) is an important figure in the early history of European political thought, one of a group of ninth-century authors who produced short treatises in which they attempted to clarify the proper relation between spiritual and secular power. The Latin text of his *De rectoribus Christianis (On Christian Rulers)* is here presented in a critical edition more complete and accurate than anything hitherto available, with a facing-page English translation. The edition is supported by an Introduction setting it into the context of the general development of political theory in the Christian West.
