

Shadow Cay

When the Nesbitts anchor in the Southern Bahamas one night in a moonlit cove, Madeleine discovers someone wants to make sure her family never makes it out of paradise alive. The double murder of her parents shatters the only security she's ever known. Now trust into a world of international intrigue, she vows to find answers before the killer returns for the next of kin. This is a contemporary thriller about the bravery of those determined to fight injustice and how big bucks and bigger dreams corrupt the motives and hearts of so many.
