

The Shipmasters Business Self-Examiner

This popular guide to the ever-increasing jungle of maritime regulation and procedures is written by a former Shipmaster and ex-maritime college lecturer with over 25 years experience in preparing students for MCA examinations. Designed primarily as a study aid for Masters Orals, the book is also used by OOW and Chief Mate students and has drawn the praises of many successful Orals candidates in the UK and overseas. Now a standard reference volume in nautical college libraries, widely used in classrooms, a handy reference for serving Shipmasters, for ships libraries, useful to shore superintendents, ship operators and all who want to keep up to date with the frequent and bewildering changes in merchant ship regulation and commercial practice. More than 3,600 and answers are set out in nine logically-arranged sections.
