

## Shriver: A Novel

Mistaken for a famous but reclusive author of the same name, Lonely Shriver attends a writers conference at a small midwestern liberal arts college. Completely unfamiliar with the novel he supposedly wrote and utterly unprepared for the magnitude of the reputation that precedes him, Shriver is feted, fawned over, featured at stuffy literary panels, and barely manages to play it cool. Things quickly go awry when one of the other guest authors suddenly disappears and Shriver becomes a prime suspect in the investigation. But most vexing of all, Shriver has fallen in love with the conference organizer, who believes hes someone else.
