

The Night the Stars Fell

Someone is murdering the people she loves. Throughout it all, the one thing Catharine Cat Taylor can depend on is the friendship of her lifelong companion Lizzie, a plantation slave. Then Lizzie is sold. Now Cat must decide - do nothing, or risk everything to save her friend and to bring a murderer to justice. Either way the decision may cost Cat her life. Framed amid a historical Meteor shower in antebellum Alabama, *The Night the Stars Fell* is filled with vivid characters that will leave you looking at friendship in an entirely new way.
