

Midget Car Speedway

It was by chance that the author stumbled across a long lost programme for the opening meeting of Hanley Car Speedway for 21 July 1938. The programme had been hidden away in family papers for almost sixty years and it sparked an enduring interest in Midget Car Speedway. Motor sport had been the preserve of the rich and glamorous but now the ordinary man could build a car and race it on a shoestring budget. It was the start of motor racing as we know it today and without the development of midget car racing, we perhaps would not have seen the Formula Three, Formula Ford and other series that we take for granted today.
