

Sun Ra: The Immeasurable Equation. The collected Poetry and Prose

A talented pianist and composer in his own right, Sun Ra (1914 - 1993) founded and conducted one of jazz's last great big bands from the 1950s until he left planet Earth. Few only know that he also was a gifted thinker and poet. Sun Ra's poetry leaves everything behind what's called contemporary, and flings out pictures of infinity into the outer space. These poems are for tomorrow. This is the only edition of Sun Ra's complete poetry and prose in one volume. The contributors James L. Wolf earned a music degree from Carleton College, and studied ethnomusicology at the University of Washington, Seattle. Now works at the Library of Congress in the Music Division. Active musician in various bands in the DC area. Many contributions to Sun Ra scholarship. Hartmut Geerken studied Oriental studies, philosophy and comparative religion at the universities of Tübingen and Istanbul. Writer, filmmaker, musician, composer. Since the 1970s, close relationships to Sun Ra and his works, setting up the world's most comprehensive Waitawhile Sun Ra Archive. Sigrid Hauff studied oriental languages and arts, philosophy, and romance studies at the universities of Tübingen and Istanbul. Freelance writer on literary and philosophical subjects. Klaus Detlef Thiel studied philosophy and history at Trier University, Ph.D. Philosophical author, focussing on theory and history of writing. Brent Hayes Edwards teaches in the English Department at Rutgers University, New Brunswick, NJ. Author and Co-Editor of works on jazz and literature.
