

## Haunting Self Help Guidebook

When it comes to the supernatural realms of ghosts and demons, there is a glut of misinformation on the airwaves and in the mainstream. With all the television shows, movies, radio and other sources of media, it can all be very confusing. Although these Ghost hunter and Demon chasing shows may make ample fodder for armchair adventurers, these TV methods are not practical for any serious application for a real and effective Haunting help. Lets face it, hype sells movies and TV and it keeps people coming back more and more to become even more perplexed as to what is really fact or fiction. Thus, the need for this book Have you been concerned about certain odors in your house that dont seem to have an obvious origin? Do you come in a room and drawers are open or things are moved and you are certain you didnt move these items? Are you having nightmares and losing sleep and waking up every night near the same time? This book addresses solutions from the more simple hauntings, infestation all the way to oppression and prevention measures. The topics covered here are presented in a non-apologetic, no-nonsense manner. The authors use ancient, time tested methods that have a rich case history of success, no matter what belief system you are. That is; if you follow the directions explicitly with no interruptions you will achieve relief from a situation or circumstance with often guaranteed success.
