

# The Cellar Vault: Mystery of the Cherokee Hideaway Trilogy

I thoroughly enjoyed The Cellar Vault, Wheeler Pounds sequel to his first book The Garden of Eve. As you read you get the feeling that you know the characters personally. The story-lines blend with factual history brought to light many things about the Cherokee removal to Oklahoma that aren't talked about in most studies about that time. I would recommend the book for anyone interested in learning more about the history of the Cherokee removal while enjoying a wonderful fictional family story.
