

The Confluence

The story of an Indian family separated by a painful event that eventually finds their way back together. In 2045, Naina Ranjeeva writes a letter to recount the journey that led to the adoption of her son Nikhil. Decades earlier, she stumbles upon a lead on the location of her aunt, who had disappeared when Naina was just a child. After her aunts disappearance, Nainas family also completely lost contact with her beloved younger cousin, Nitu. With her aunts location in hand, Naina takes the first step toward locating her cousin by traveling to the Republic of East Africa to search for her aunt. Her journey eventually leads her to Calcutta where she finds her cousin Nitu and his three-year-old son Nikhil. After two decades apart, the family starts to bridge the gap caused by years of separation, within the backdrop of political turmoil and revolution in East Africa.
