

The Creators Guide: Whats Your Desired Reality?

The Creators Guide is an exploration of the creative power of living beings. The manifested things, we have found, are the reflection of the creative desires projected by earthly creators as authorized by the Original Creator. We have the ability to slip in and out of preferred realities by using simple acts of desire projection. In order to create the highest level of peaceful and creative existence with what we desire, we must tune into our Universal Source, God. Creators on the earthly plane can use this knowledge and ability to create on the same plane as the Creator, God. This is how we were formed and fashioned, in the beginning, and are here to act as such.
