

The Destiny of Man

In *The Destiny of Man*, Nikolai Berdyaev sketches the plan of a new ethics. This new ethics will be knowledge not only of good and evil, but also of the tragedy which is constantly present in moral experience and complicates all of man's moral judgments. It will emphasize the crucial importance of the personality and of human freedom. The new ethics will interpret moral life as a creative activity; it will be an ethics of free creativeness, an ethics that combines freedom, compassion, and creativeness.
