

The Fall of the Roman Republic: A Short History of the Last Century of the Commonwealth (Classic Reprint)

Excerpt from The Fall of the Roman Republic: A Short History of the Last Century of the Commonwealth I have already written at length, for students of antiquity, the annals of the generation which preceded the battle of Actium, as an introduction to the larger work which I still venture to contemplate on the history and constitution of the Roman Empire. But the wish to present in one view the whole cycle of revolutions which overthrew the noblest republic of the ancient world, has induced me to condense the history of an hundred years in a single volume, adapted in its form and character to the instruction of a more general class of readers. My object has been to present a rapid narrative of events, so grouped and shaded, if I may so express myself, as to fix a permanent impression upon the mind, leaving minute details to be examined in the original authorities, which alone can generally impart interest to them, and dispensing for the most part with the disquisitions on manners and institutions, which if carried out to any profitable extent would grievously encumber these slender pages. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
