

The Happiness Equation: Want Nothing + Do Anything = Have Everything

Whats the formula for a happy life? Neil Pasricha is a Harvard MBA, a Walmart executive, a New York Times best-selling author, and a husband and dad. After selling more than a million copies of his Book of Awesome series, he now shifts his focus from observation to application. In The Happiness Equation, Pasricha illustrates how to want nothing, do anything, and have everything. If that sounds like a contradiction, you simply havent unlocked the Nine Secrets to Happiness. Each secret takes a common ideal, flips it on its head, and casts it in a completely new light. Pasricha then goes a step further by providing step-by-step guidelines that illustrate exactly how to apply each secret to live a happier life today. Controversial? Maybe. Counterintuitive? Definitely. The Happiness Equation will teach you such principles as: Why success doesnt lead to happiness How to make more money than a Harvard MBA Why multitasking is a myth How eliminating options leads to more choice The Happiness Equation is a book that will change how you think about everything - your time, your career, your relationships, your family, and, ultimately, of course, your happiness.
