

The Ninja Lurking in the Dark

Did you grow up in the 80s? Were you a boy who loved the ninjas and cheesy kung-fu movies? Did you ride your bike without a helmet and throw ninja stars at your neighbours trees? Take a humorous old-school walk back to the days of the ninja craze--back when kids could still be kids without all the political correctness B.S. Written by a nine-year-old in 1984, The Ninja Lurking in the Dark is a hilarious story of violence, friendship, battles to the death, and, of course, post-fight pancakes. Let that little ninja lurking in the darkness of your memories come back to life with this saga that probably should have sent its young author to a guidance counsellor.
