

The Resurrection of Jesus: An Apologetic

This book, originally published in 1980 by Baker Book House, is an argument from the historical resurrection of Jesus to several major tenets of Christian Theism. It asserts that, even by utilizing the techniques of skeptical historians, the resurrection is a literal event of history and that is relevant in an understanding of Christian theology. The resurrection provides the basis for each step of this apologetic which sets this work apart from the other defenses of the faith.
