

The Sudan Handbook

The Sudan Handbook, based on the Rift Valley Institutes successful Sudan Field Course, is an authoritative and accessible introduction to Sudan, vividly written and edited by leading Sudanese and international specialists. The handbook offers a concise introduction to all aspects of the country, rooted in a broad historical account of the development of the Sudanese state. It consists of eighteen self-contained, cross-referenced chapters, covering essential topics in the geography, history, sociology, culture and politics of the country, written by outstanding Sudanese scholars and recognized international experts. It includes numerous purpose-drawn maps and diagrams, glossaries of key terms, capsule biographies of key figures, a chronology and a bibliography. John Ryle, Rift Valley Institute and Division of Social Sciences, Bard College, USA;
