

A Small Thinking of Genesis

Can we understand the mysteries of biblical creation? Was there an historical Eden? What is sin? How can we live by Gods commandments? People struggle to find answers to these and other truth seeking questions their entire lives. Many turn to religion, others to science, still others seek more humanistic answers. A Small Thinking of Genesis is the result of one mans personal epiphany; a spiritual revelation that is offered to other seekers of truth. Captured by an arresting vision in late 1992, author and retired minister Jade Stream felt compelled to record what he had learned for the benefit of helping others. Permeated by his profound faith, the effort he has expended in translating this work from his original Korean dialect is sharply evident. Yet the utter humility found in his message is worth equal effort by the reader to receive it.
