

Timeless Wisdom for the Modern World IV

The reason why life is difficult and fearful is because we do not know the right way to go. Will we ever regret a choice that cannot be reversed or goes astray? What will happen tomorrow? Will we indeed be able to resolve the matters we encounter and be well? We, suddenly and often, are frustrated and seized with the feeling of anxiety during our hectic day-to-day life. But wouldn't it be great if we knew the right direction, or could find exactly where to go at every crossroad and at every moment of choice in life because we have milestones and guidebooks to find the right ways? Of course, there are many great and helpful books around us, and they sometimes do have great advice. However, it is difficult to find the exact words that guide us, or touches our hearts during the moments we make decisions. This book is a lucid guidebook of life and a treasure of indisputable wisdom that can resolve issues that life may beat down on us according to the eastern thoughts and philosophy.
