

## Undersea Prison (John Stratton)

After the British military lose an officer to Taliban insurgents in Afghanistan, a desperate race begins to find his killers. Little do the assailants know that the precious information they have stolen could bring down the entire network of Western intelligence in the Mid-East. But then one of them is captured by US troops and flown to the States for interrogation. And so begins a nail-biting, claustrophobic and explosive thriller that will ultimately lead British operative John Stratton to the Styx penitentiary, Americas undersea prison. How do you break in to a jail a hundred metres below the ocean? Can Stratton get the information back without the US discovering him? And is everyone in the prison really who they seem to be? With its labyrinthine narrative and authentic detail, its CIA plots and White House agents, this fourth thriller in the Stratton series will catapult Duncan Falconer right into the top tier.
