

The X Blessing: Unveiling Gods Strategy for a Marked Generation

Well-known television preacher, Bishop Clarence E. McClendon opens the X Files as he presents revelatory insight from Genesis 48. This old Testament narrative provides the framework for a revolutionary look at how God occasionally goes outside of His established order of blessing the first-born and expected generation in favor of releasing His blessing upon the younger generation. God is once again flipping His grace and choosing the unexpected. While the secular news media and experts of the day have decided Generation X to be an unknown generation and have labeled them as lazy, lost, confused, and without hope, McClendon believes this is truly the blessed generation.
