

Ooga Booga

It has been a few years since the deaths of Tamir Rice, Michael Brown, Eric Garner, Tanisha Anderson, Freddie Gray and Sandra Bland. A mysterious condition invades the U.S., erasing the Black individuals ability to speak any known languages. A bizarre new dialect has surfaced instead. Unable to comprehend their surroundings, they take to the streets and do what they can to survive. This sparks nationwide panic, triggering a government mandate to capture Black people and transport them to isolation camps. Marketing executive Vanessa Landing risks everything to fight for their freedom, not realizing the web of deception awaiting her, nor the liberating love that will transform her from an insecure corporate pawn into the fierce warrior she was meant to be.
