

Vilimani: Labor Migration and Rural Change in Early Colonial Tanzania (Social History of Africa)

During the German rule of Tanzania nearly half a million people entered colonial wage labour circuits. Case studies are used to explore the transformations in slavery and portorage, social and work life on plantations and railways, and gendered conflict at the household and village level. It also looks at how rural social change intersected with the Maji Maji rebellion of 1905. North America: Heinemann
