

Voices of Sedona: A Spiritual Path to Serenity and Contentment

You see, although we make decisions all the time, freedom of choice is an illusion of belief. To understand illusion, illusion must exist. It is the ultimate hubris for Homo sapiens to think they alone, above all the life forms on Earth, have the power of choice when it seems that all other life forms do what they must instant by instant. Health, wealth, and happiness are transient phases of life. When life makes no sense and the beliefs we live by fail to explain reality, traditional supports may no longer be of comfort. If you are scared and confused about the uncertainties and suffering in life, you may find solace in Voices of Sedona. In addition to inspired dialogues with his spiritual teachers in Sedona, Arizona, author Lewis Tagliaferre blends elements of religion, psychology, philosophy, history, and current events into five incredible principles of universal awareness. When a personal crisis strikes-whether it arises from occupational, family, social, physical, or financial changes-its normal to feel a loss of control. If traditional beliefs fail to bring comfort at those times, there may seem to be nowhere to turn for inner peace and contentment. But, you can feel good inside no matter what happens outside.
