

Where the Nations Meet: The Church in a Multicultural World

Ride the subway or a bus in New York, London, Los Angeles, or any number of other cities around the country or around the world, and you will be impressed by a cacophony of languages, a crazy quilt of skin colors and a ceaseless array of cultural histories. Excitingly and sometimes confusingly, this is the world the church now serves. Pastor Stephen Rhodes, in whose congregation thirty-two nationalities gather weekly, fervently believes Christians should embrace the varied cultures that now surround us. In *Where the Nations Meet* he sets forth a biblical, ministry-tested pastoral theology of multiethnic ministry. He shows how God's creation was always intended to be multicultural, how the church is called to evangelize, serve and include all ethnicities, how the church can bring healing to increasing conflict in a world of so much difference, and much more. Peppering his prose with inspiring and challenging stories from multicultural congregations, Rhodes not only provides a theological basis for multicultural ministry but also suggests how such ministry can be successfully conducted in all churches. He offers a valuable guide for all pastors and laypersons who want their church to be a place of unbounded celebration where the nations meet.
