I just finished reading Letters from Wishing Rock: A Novel With Recipes by Pam Stucky, and loved it! So much fun, made me want to move to Wishing Rock. by The Wishing Rock Theory of Life. Be sure to watch for the third and final book in the series, to be published in spring 2013! What would happen if everyone in town lived in the same building? Ruby Parker is about to find out. Her fiance has left her and she needs a fresh start, so she moves to Wishing Rock, Washington, a small town on Dogwinkle Island in the waters near Seattle, where she meets a quirky cast of characters who quickly become family. Letters between the neighbors and their friends chronicle the twists and turns of the characters daily lives. Theres Jake, a handsome and charming first-year medical student who catches Rubys eye from the start, despite his being over a decade younger. Millie, a Wishing Rock resident for forty years, runs the towns library, post office, newsletter and grocery store, knows everyone and everything, and shares the history of the area with her playful wit. World traveler and psychic Alexandra bestows insight and wisdom with humor and compassion, and Rubys Gran heads to the United Kingdom, heeding her own advice to seize the day. And then theres Ed; if something fun is going on, the grandson of the towns founding father is likely at the center of it. Amidst all this action, Ruby manages to find passion and companionship, but will she be able to open her heart to love? Online dating, a group trip to Scotland, a discussion about dogwinkles, a fateful hoedown, and friendships old and new, all interspersed with recipes from some of the towns best cooks, make Wishing Rock come alive in this delightful and insightful look at life, love, relationships, and community.
