

## Car Buyers Guide for Women

The author went undercover for three months during the first part of 2003, observing, investigating and collecting information on the automobile industry. The author was an actual salesman for a multi-franchise new car dealership. The information contained herein is the actual experiences of this former federal marshal. Citing federal codifications in Title 15 and Title 18 of the United States Code, and Fair Credit Laws imposed by the United States Government, the information contained is not hearsay, conjecture, or secondary information, but actual observation and direct testimony. You will read about the Monroney Act, the federal law making car manufacturers put on Sticker Price labels, so you, the buyer, know what you are getting. This sets the stage for all new car sales. Now we need to get legislation to get this type of sticker on all used cars.
