

## Security for the Pope. In a Violent and Rebellious World

Security issue has emerged in workshops and seminars as one of the pertinent themes of today. Global security is at stake as terror networks fuel hate and intolerance against the Christian minority. The Roman Catholic Church is subjected to threats by some radical section of Muslims, and fundamentalists from Pentecostal sects. Some Church ministers including popes have been targeted and attacked. Given such a situation; the security of the Pope and the Roman Catholic Church is an urgent theme for reflection in response to the concrete situations facing the Church. Security issue cannot be treated as peripheral theme in contemporary ecclesiology.
