

Practical Classics on Midget & Sprite Restoration (Brooklands Road Tests)

This was the sixth car completely rebuilt in front of the camera for the Project Car series, the bodywork being done in the Lindsay Porter workshop. A restoration project such as this gives the owner a good insight into all the problems than can arise and their solutions. This books shows panel replacement, 1275cc engine rebuild, trim and all mechanical components. A supplement covers the rebuild of a Frog-eye Sprite.
